

FREE HEAT PUMP FUNDED TRAINING

Taking Bookings Now - Limited Spaces

(Qualification pre-requisites apply to these courses)

Low-carbon heat pumps are critical technologies for decarbonising heat. To meet the UK's legally-binding climate targets, thousands more heating engineers will need to learn to install and maintain these technologies.

The Heat Training Grant supports trainees in England taking short training courses relevant to heat pumps and heat networks. Trainees can receive grants of up to £500 towards eligible courses.

Our Courses

- Level 3 Air Source Heat Pump Course (Free)
- Level 3 Ground Source Heat Pump Course (Free)
- Level 3 Combined Heat Pump Course (Small cost + Extra day)
